SALT

ABOUT US

Mutlucan Salt has been operating under the Mutlucan Group Companies since 2004 and is one of the largest salt producers in Turkey and a prominent player globally. We provide high-quality salt solutions for various sectors including food, chemical, textile, water treatment, and industrial applications.

Our refined rock salt brand, Parla Salt, processes natural rock salt extracted from the reserve in Kırşehir at our modern facility with a 150,000-ton annual capacity, achieving 99.9% purity. We serve both the domestic market and over 40 countries worldwide.

Mutlucan & Parla Salt is the only producer in Turkey utilizing both solar and vacuum salt technologies, offering flexible packaging options, certified quality standards (ISO, HACCP, Sedex), and a sustainable production approach that makes it a preferred brand on a global scale.

The purity of nature
reaches your table
with Parla Salt.

Table Salt

Specially produced for daily use, Parla Table Salt stands out with its fine-grained natural texture and hygienic packaging. Thanks to its refined production process, it remains fresh for longer without clumping. You can feel the balance of nature in every grain.
